Dr. John N. Chacha

Dear Partners,

My heart is full of praise as I prepare to leave tomorrow for Dar es Salaam, Tanzania for ministry. God has opened many doors for us to minister in that country. During this trip I will minister in a conference that will be radio broadcast to the whole nation. We are believing God for a great harvest of souls.

It was wonderful to see many of you at our partners' banquet. It was the best Teamwork banquet and conference yet. We ran out of room, a good problem to have! Next year we will get a larger place. We heard powerful, challenging speakers, were blessed with a dance team and had a great time of sharing what God has done. Another highlight was a Teamwork Children's Home DVD put together by Missy Murray, who took pictures on site in August, and by our son, Mwita. For those of you who are interested in promoting the children's home to your church and/or friends, you can request multiple copies of the Teamwork Children's Home brochure and DVD.

Through faithful partners at the banquet and previous giving, we have the funds to make bricks and lay the foundations of our first Teamwork Children's Home and our administrative center in Tanzania. We still need a lot of money to complete the project. One of our partners at the banquet has pledged to buy a tractor, which we need for the crops to feed the children. Eventually, we will need more than one tractor. We also have just enough funds

to make bricks and lay the foundation for the hospital, but we still have a long way to go, since we are building staff housing as well. What an exciting faith adventure!

LEARNING TO BELIEVE GOD FOR GREAT THINGS

As we step out in any new venture, particularly a God-given one, we need to dream BIG. We need to learn how to walk by faith, hearing from the Lord and following His lead, even when things seem impossible.

In my own experience, whenever God has given me a BIG dream, I have learned not to wait until I have all the resources. I have learned that when you trust God and step out by faith, God will meet you halfway. For example, when God called Abraham to leave his people, he just had to leave, not knowing where he was going. God directed him step by step. God also told Noah to build the Ark. Noah did not have to wait until he understood all the facts. If he had waited until he understood what a flood was and how a boat was to work, it would have been too late.

When you study the history of great achievements you will discover the fact that behind every great achievement was a great dreamer, a dreamer who was willing to "stick out his neck" despite all odds and impossibilities, a visionary who was willing to challenge old ideas and the old ways of doing things.

Great Achievers

Great achievers possess a burning desire to achieve their goals. They know how to harness the power of faith and put into practical use the intangible, unseen forces of knowledge. They know how to seize opportunities in a timely fashion.

These great leaders with pioneering spirits are the people who convert deserts and jungles into cities, skyscrapers,

factories, and industries. These are people who have reshaped the world of horse and buggy to a world of jets, high speed trains, and cars. They have recreated the world from a slow world into a world full of every form of convenience that makes things easier, faster, and better; a world of cell phones, high speed internet, satellites, and super highways.

Levels of Greatness

There is a level of greatness that each one of us is capable of achieving through faith and hard work. There are millions of people who have become failures in life because they have allowed others put down them and their dreams. To be a winner in this changing world, you

must guard your mind from negative programming and have a burning desire to be and do what you were born for.

● **Do Not Worry About What People Say**

If the things you wish to do are right and are in accordance with the will of God for your life, then you need to go ahead and do it. Do not worry about what other people will think or say. Learn from the temporary defeats or setbacks that you encounter along the way.

It takes no more effort to believe for abundance and prosperity than it takes to doubt. Aiming high requires no new special brains than those required to accept misery and poverty. To believe, you must fill your mind with the right stuff, backed by faith in the Lord. I came from humble beginnings, so I understand the power of faith and having big dreams. When we believe, anything is possible.

● **The Power of Faith**

The power of faith can lift people out of all types of bondage, oppression and difficulties. I have seen people who were once victims of poverty and all kinds of

failures, but they stage their own comeback through the power of faith and by believing in God's ability to work in and through them. Don't allow the world and your problems to hijack your dreams and your purposes in life. You were created for a higher purpose and not for defeat and poverty. If others, who were once failures, were able to leave their miseries behind and become great achievers, inventors, leaders and pioneers, you can do the same.

● **We Appreciate You**

We appreciate your continual support and your trust in us. Please continue to uplift us in your prayers. Our ministry is growing, reaching new nations and winning souls for Christ. We count on your financial help to help us accomplish what God is calling us to fulfill. We believe we are entering into a new season of great breakthroughs. We want all our partners to enter with us into this new season. We hope to hear from you soon. Let us rise up and build the Kingdom of God. Thank you for helping us bring transformation to the nations. God Bless You,

Dr. John N. Chacha
